14.2.3938

Release Notes

This version is one quick step forward 14.2 PrivateServer series. Actually we fixed one minor bug about proximity sensor, but mostly we improved compatibility between client and server of 14.2 family.

PrivateWave - All Editions - Version 14.2.3938

Improvements

- N/A

Fixed Bugs

- [PGBB-1096] - Proximity sensor it not active in early phase of one call
- [PGBB-1088] - Outgoing messages burst prevented PrivateWave from connecting toward one 14.2 PrivateServer
