15.0.3260

Release Notes

Maintenance release

PrivateWave - All editions - 15.0.3260

Improvements

- [IOS-1233] - Added support for 64 bit architectures

Fixed Bugs

- [IOS-1031] - License expired is reported, before actually retrieving current license
- [IOS-1107] - License expiration is reported, despite application correctly works
- [IOS-1252] - Calls occasionally lose microphone input
- [IOS-1255] - Application crashes if it receives an incoming call while system keyboard is active and shown on display, eg: editing a message

PrivateWave - Professional edition - 15.0.3260

Improvements

- [IOS-1212] - Trust/Untrust action is PIN protected
