

15.0.3291

Release Notes

This version is certified against iOS 8.4 and carries some bug fixing.

PrivateWave - All editions - 15.0.3291

Improvements

- [IOS-1270] - Certification of iOS 8.4
- [IOS-1271] - Reset missed call history item when exiting from first global call history display

Fixed Bugs

- [IOS-1207] - When duress code is used and the app is in foreground with secure message composer opened, it shows the last screen previously displayed
- [IOS-1260] - Incoming messages are sometimes lost on 64 bit platforms if application is PIN-locked
- [IOS-1262] - Received messages counter is not shown as badge icon if application is pin locked
