In which countries PrivateWave is forbidden?

Detailed answer is: it depends on what you need:

- using PrivateWave
- selling PrivateWave
- exporting PrivateWave

They have different legal constraints.

As of September 2013, short answer is:

- Use is allowed everywhere, with no limitation.
- Sell in country is restricted, unless authorized by relevant authorities, in Iran, Russia, China.
- Export from EU is restricted to Iran, Russia, China and North Korea.
