

15.0.6434

Release Notes

This is a maintenance release.

PrivateServer - Version 15.0.6434

Improvements

- [PS-2155] - Added "account" column to SIP session in exported CSV file and SQL view V_SIP_SESSION

Fixed Bugs

- [PS-2084] - Authentication fails if SAML SSO is enabled
- [PS-2105] - Potentially inaccurate logging of SIP/TLS destination addresses for requests and replies
- [PS-2161] - Audio tones configuration in SIP trunk is not used
- [PS-2167] - PrivateServer is not RFC compliant ignoring video offer in SDP negotiation
