Release Notes

Version 14.1.2486 is specifically focused on performances. We fixed also some annoying crash of the application, but mostly we made a point of making this release quick and smooth even on older iPhone models.

PrivateGSM - All Editions - Version 14.1.2486

Improvements

- [IOS-992] - Improve performance of messaging view
- [IOS-993] - Improve performance of setting the number of missed calls/new messages

Fixed bugs

- [IOS-973] - On older devices PrivateGSM could restart itself after unlock of the device, due to bad Presence performances.
- [IOS-824] - PrivateGSM could sometimes freeze if secure call was interrupted by incoming GSM call
- [IOS-931] - If PrivateGSM settings could be edited, then application could crash when accessing "Application Tab" section
