

Android 10.6.2525

Release Notes

PrivateGSM - All editions - Version 10.6.2525

New Features

Improvements

* [PGDR-280] - Unify error message across all platform

Fixed Bugs

* [PGDR-279] - With CustomCA, wrong SSL certificate (with wrong domain name) does not deny SIP registration

* [PGDR-285] - Crash in NetworkUtils.dataConnectionAvailable()

* [PGDR-286] - TLS security police is ignored and it is not possible to connect to server with self-signed certificate

Known Issues
