

PrivateGSM Professional Invite features

Professional version of PrivateGSM provides some additional features that allows your contacts to easily try the application, simplifying installation and deployment process.

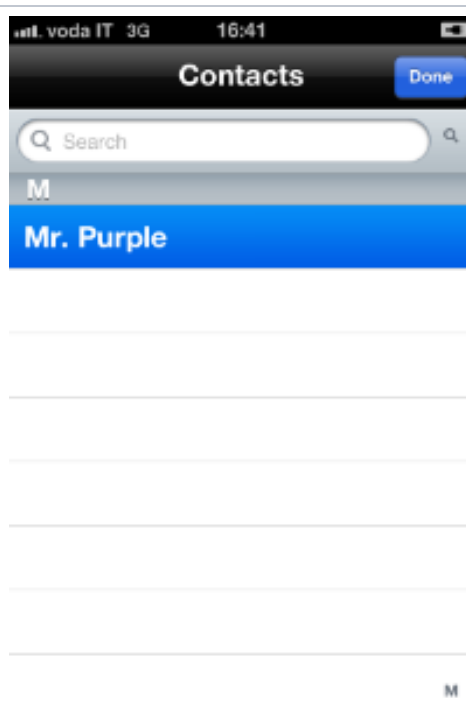

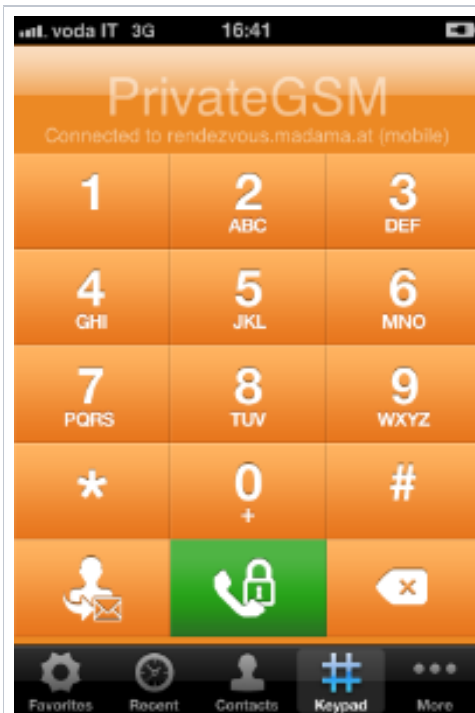

Inviting a contact to use PrivateGSM Professional

You can invite a contact from your phone book to use PrivateGSM. The contact will receive a text message with a link, inviting him to install the software.

BlackBerry

 <p>The screenshot shows the PrivateGSM Professional main menu on a BlackBerry device. The status bar at the top indicates 'WIFI' and '3g'. The menu options are: 'Dial secure call' (with a lock icon), 'Invite others' (with a person icon), and 'License' (with a document icon). The 'Invite others' option is highlighted.</p>	 <p>The screenshot shows the 'Select contact' screen on a BlackBerry device. The status bar at the top indicates 'WIFI' and '3g'. Below the title 'Select contact', there is a 'Search:' field. Below the search field, a list of contacts is displayed: 'Adelio Rezzonico', 'Giacomo Gervasoni' (highlighted), 'Ingrid Brunner', 'Jean Paul Blanc', and 'Roger Cabalzar'.</p>
1. Select Invite others	2. Select a contact
 <p>The screenshot shows the PrivateGSM Professional main menu on a BlackBerry device. The status bar at the top indicates 'WIFI' and '3g'. The menu options are: 'Dial secure call' (with a lock icon), 'Sending invitation SMS...' (with a person icon and a black overlay), and 'License' (with a document icon). The 'Sending invitation SMS...' option is highlighted. At the bottom of the screen, the text 'Sending invitation SMS...' is displayed.</p>	
3. Invitation message is being sent	

iPhone

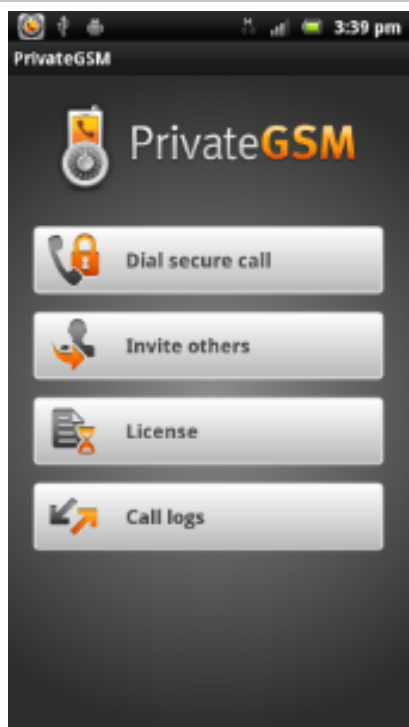

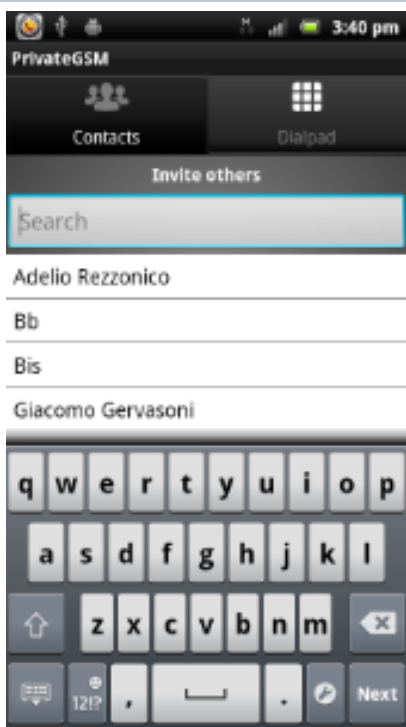

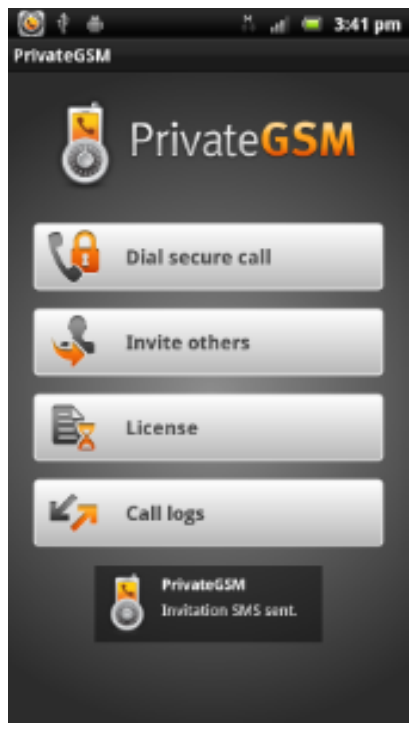

1. Tap Invite icon (bottom left corner)

2. Select a contact

3. Confirm sending the invitation

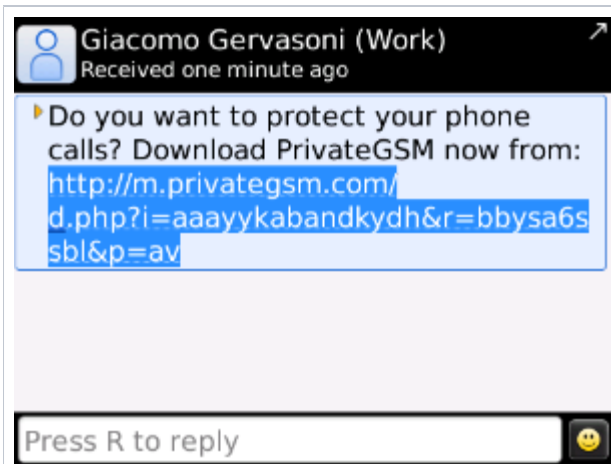

Android

	
1. Select Invite others	2. Select a contact
	
3. Invitation message is being sent	

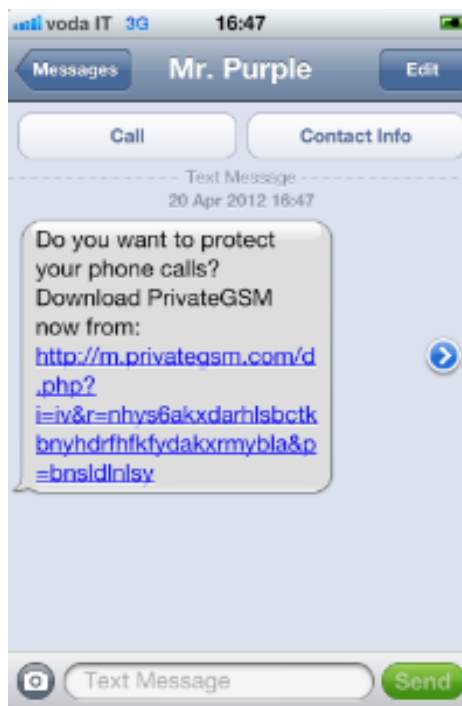

The invited contact needs only to click on the link in the message. If his mobile device is compatible the installation process will start.

Accepting an invitation

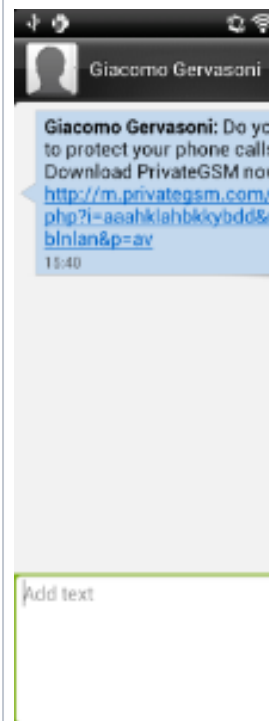

To accept an invitation to install PrivateGSM:

1. BlackBerry: click on the link and download the installation wizard

2. iPhone: tap on the link and the installation will be launched

3. Android: tap on the link and the installation will be launched

The "Invite others" option is available only for the Professional version, in order to allow users to build a contact network to make secure calls.
