## **Blackberry - Repeat activation**

Open the settings screen from the application menu (Fig. 1). Open the menu and select "Rerun activation wizard" (Fig. 2). PrivateGSM will restart and after the reboot activation wizard will start (Fig. 3)

PrivateGSM Activation Wizard	
PrivateGSM activation wizard is going to start. It is strongly recommended to perform the entire procedure. Otherwise, to use PrivateGSM, you must manually configure your SIP account (recommended for advanced users only).
