

PrivateGSM Blackberry 11.3.3383

Latest update

Unknown macro: 'page-info'

An important bug fix version that amends a registration issue: in certain circumstances the BlackBerry could stay disconnected for some times without noticing. Also a problem about writing down the logs has been resolved.

Release Notes

PrivateGSM - All editions - Version 11.3.3383

Fixed Bugs

- [PGBB-900] - BlackBerry would give up the registration if the timeout was reached before the registration process was completed.
- [PGBB-904] - Blackberry sometimes wasn't able to write the log file

Known Issues
