## PrivateGSM Blackberry 11.3.3421

## **Release Notes**

PrivateGSM - All editions - Version 11.3.3421

## **Fixed Bugs**

- [PGBB-931] Ringing time out was mistakenly set to 8 seconds instead of one minute. On the caller side this error produced a call drop after 8 seconds, on the callee side it led to a pointless continued ringing even with no call to answer to.

  [PGBB-935] - We encountered a connection issue on PrivateGSM: after a licence renewal the device would not automatically reconnect to its
