

PrivateGSM iPhone 11.3.2072

Latest update

Unknown macro: 'page-info'

Release Notes

This release amends a small lot of annoying bugs scattered in the Presence service as well as in other parts of the application.

PrivateGSM - Professional Edition - Version 11.3.2072

Fixed Bugs

- [IOS-753] - In "recent calls" log occasionally contact name was empty
- [IOS-636] - Provisioned log level was ignored
- [IOS-708] - Icon is shown if microphone is muted.
- [IOS-742] - "Refresh" button in "Presence" view didn't actually work
- [IOS-794] - Presence not available at first launch after installation
- [IOS-781] - Blank line in option window on iPhone App
- [IOS-728] - Licensing requests were wrongly routed if PrivateGSM was self registered
- [IOS-802] - The user was able to change device settings from read-only to customisable

Improvements

- [IOS-789] - Removed phone number in keypad after call
