Blackberry

> ⊘ Devices with Blackberry OS 6.x are not and cannot be supported due to a firmware bug. Some devices (Bold 9700, Curve 9300) were released with OS 5.0 and then upgraded to OS 6.0: they are supported only with OS 5.0 and, if you bought with OS 6.x, they could be downgraded. Firmware are specific to device and mobile operator and can be download from RIM website
